**Available: May – August 2013**

### **Objective**

My interests are in securing summer employment to gain experience in the business environment, apply skills and understand the latest uses of information technology in business. I was chosen by Northeastern University as one of 400 accepted freshman to be part of a unique first semester spent studying in England. Through my commitment of over 10 years in scouting, I achieved the rank of Eagle Scout in 2011 and believe that experience has prepared me to take on challenges, help solve problems and work with teams.
